

You are the

Emotion-Regulation Procrastinator

You delay tasks that trigger unpleasant emotions like boredom, frustration, or insecurity. Procrastination is your way of managing emotional discomfort.

START HERE

Practice emotional awareness and acceptance

Strategies That Work For You

- Practice emotional awareness and acceptance
- Use mood-boosting activities before difficult tasks
- Break tasks down to reduce emotional intensity
- Pair unpleasant tasks with rewarding activities
- Develop healthy emotion-regulation techniques

Your Strengths

- High emotional intelligence and self-awareness
- Ability to recognize emotional triggers
- Empathy and understanding of others' emotions
- Motivation to create positive emotional experiences

Often Confused With

These patterns overlap. If your result only half fits, it's worth reading about these too.

Avoidant Procrastination

Both delay to escape a feeling. Fear is one feeling among many.

Passive Procrastination

Low mood and weak systems produce the same missed deadline.
